Patent Agreement

These patented varieties of plants are being handled under license from the patent owner.

*(Especially Recommended)

It's easy to convince people Roses will give more for the money than any other shrub

● **PACKING:** Quite often the method used in packing Rose bushes determines whether the bush will live or die. When planted, the little fine feeder roots should never be allowed to dry out from the minute they are dug until they are planted. All our Roses are handled under the supervision of a capable foreman, and regardless of the cost of packing materials, we use sufficient quantity to maintain moisture.

In bulk orders, please order in multiples of ten of any variety and grade, since bundles cannot be broken on wholesale pricing.

● **INDIVIDUAL WRAPPING** for counter trade at an additional cost of 10 cents each, which covers the extra labor and colored labels.

Don't overlook the opportunity of suggesting Hybrid Perpetuals for hedgerow plantings. Are you getting your share of estate plantings, parks, schools, and public works?

● **SHIPPING:** We prefer to ship as many orders as possible in the early fall and winter, and can ship at prices quoted through March 1st.

● **COLD STORAGE** on bushes from March 1st to June 1st will carry an additional 10 cents per bush to cover actual locker expense. These bushes will be perfectly dormant and in ideal condition for late spring planting and should bring you quite a premium from the trade.

Orders for individual wrapped bushes must be in quantities of 100 or more, but they may include different varieties and grades provided they are in multiples of ten.

The increasing popularity of Floribundas for bordering and background plantings in small beds of perennials is evident from the greater interest shown each year.

ALL BUSHES LIBERALLY GRADED

SHORTING CUSTOMERS WON'T BRING REPEATED BUSINESS

Prices, F. O. B. Tyler, Texas

No. 1, 50c each; No. 1½, 40c each; No. 2, 30c each

TERMS: 25% deposit with order, balance C. O. D. (2% discount if total payment accompanies order)

GUARANTEE: We guarantee to ship only well-developed normal bushes that have been dusted during the growing season with 10-90 Copper Sulphur to prevent fungus, mildew, and black-spot. All plants are fully two years old and will be graded by American Association standards or higher. Varieties shipped will be true to name and will leave our plant in first-class condition.

We cannot be responsible for delay in transit or mishandling by transportation companies. Should this occur, file your claim with them directly and we will assist you in getting the full amount. We will endeavor to fill every order submitted, but will not be responsible for any sums greater than the amount of the order and will refund any orders that cannot be filled. Orders take preference in rotation as they are received.

PACKING

Quite often the method used in packing Rose bushes determines whether the bush will live or die. The little fine feeder roots should never be allowed to dry out from the minute the bushes are dug until they are planted. All our Roses are handled under the supervision of a capable foreman, and regardless of the cost of packing materials, we use sufficient quantity to maintain moisture.

In bulk orders, please order in multiples of ten of any variety and grade, since bundles cannot be broken on wholesale pricing.

INDIVIDUAL WRAPPING

For counter trade at an additional cost of 10 cents each, which covers the extra labor and colored labels.

Orders for individually wrapped bushes must be in quantities of 100 or more, but they may include different varieties and grades provided they are in multiples of ten.

SHIPPING

We prefer to ship as many orders as possible in the early fall and winter, and can ship at prices quoted through March 1st.

COLD STORAGE

On bushes from March 1st to June 1st will carry an additional 10 cents per bush to cover actual locker expense. These bushes will be perfectly dormant and in ideal condition for late spring planting and should bring you quite a premium from the trade.

PATENT AGREEMENT

These patented varieties of plants are being handled under license from the patent owner.

Why you should buy *NOW* from us—

First: Because we have, without question, the finest facilities in East Texas for properly packing your orders.

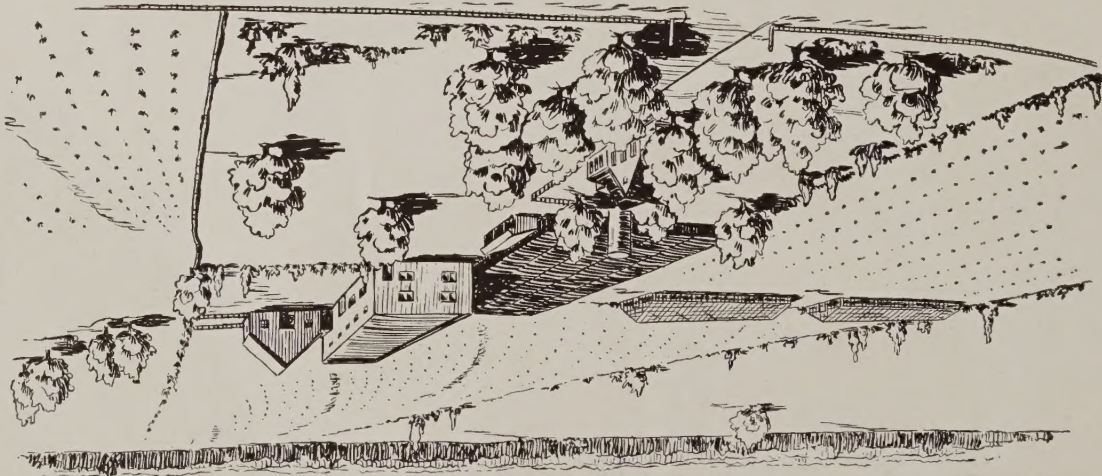

Also, because this is your first order with us in a long time, and we are anxious to prove to you that we can grow a better Rose bush by scientific methods.

You will benefit materially from handling Rose bushes that have been fed the proper nutrients and dusted with copper-sulphur to eliminate mildew, fungus and black-spot. These Roses do not die back in storage because the canes are sufficiently hardened before the plants are dug. We will not ship Rose bushes that are not sufficiently dormant to withstand the shock of digging and handling.

When you order from us you really get what you pay for.
